

ROUGH TERRAIN FORKLIFT AND AERIAL LIFT SAFETY TRAINING

*PART OF ABC'S 2008 SAFETY SEMINAR SERIES
(SEE REVERSE FOR FULL SERIES TOPICS AND DATES)*

\$225 per person / ABC Member
\$340 per person / Non-ABC Member

ABC Chapter Training Center, Concord NH
CONTINENTAL BREAKFAST AND MATERIALS INCLUDED

**WEDNESDAY, NOVEMBER 19, 2008
7:30AM - 12:30 PM**

Rough Terrain Forklift & Aerial Lift Safety Training Participants will have the ability to complete comprehensive training in the use of **Rough Terrain Forklifts, and Aerial Lifts**. Outlines have been developed to include discussions of the equipment itself, such as sytem of controls, hydraulics, steering mechanisms, seat belts and other safety equipment, as well s the environment in which the equipment may be used. Sample inspection checklists will be used. Each participant will operate the equipment within an obstacle course established by the instructors.

Many companies are under the false impression that completion of a 10-Hour OSHA Outreach class satisfies OSHA's training requirements in full ... **it does not.**

This course is designed to meet the training requirements in the OSHA standards for this subject, although site-specific information must be added so that the unique concerns of each jobsite are covered as well. Each attendee will receive a wallet card demonstrating their successful completion."
